

LET'S GET HEALTHCARE WORKERS A PAY RISE!

DID YOU KNOW?

Our NHS and healthcare workers are leaving the profession because of low pay. We need to do more than clap for our carers. The government now needs to put their money where their mouth is.

- ➔ Nurses have lost 20% of their pay in real terms
- ➔ There is a nursing shortage! 40,000 nursing vacancies in England alone (RCN in Guardian)
- ➔ 77% of the public support a 10% pay rise for all nurses (Yougov)

NOW IS THE TIME !!!

82% of people think the government should increase NHS funding (Yougov) so the Government needs to stop cutting pay and putting patient safety at risk. **We need to invest in our healthcare workers and our country.** Our NHS is great because of its staff and this guide is to show you how you can get involved to value them.

HOW WE WIN !!!

We need you! The only way we win is with thousands of people, like you, getting involved.

Nurses United is a group of **frontline nurses** for **frontline nurses** and we need you to join us today! We're organising to get the things healthcare workers and our patients need. We need to get everyone we know to apply pressure to the leaders of political parties so we can win. Flip this leaflet over to find out how!

LET'S GET HEALTHCARE WORKERS A PAY RISE!

HERE'S WHAT WE NEED YOU TO DO NOW

Sign the petition and use our letter tool:

It informs your MP about how many people care about the issue but crucially will also ask that they take up the cause inside their own party. We can't win without you and people you know telling MPs they care about our healthcare workers and want to see a pay rise. www.nursesunited.org.uk/campaigns

Stay informed and engaged

We need your unions and political parties to publicly call for a 15% pay rise which means passing motions in your branches.

Healthcare Worker:

The only way we'll win is if thousands of us sign the petition and write to our MP. We need you to talk to five of your colleagues this week about why you all deserve a pay rise, get them to sign the petition and join the whatsapp group. .

Supporters and friends:

Talk to five other people you know. This could be your family, friends, neighbours or work colleagues. Share stories of what NHS staff have done for you and your loved ones, why you support a pay rise and ask them to sign the petition and write to their MP.

Union and Political Party members:

Come along to our organising calls because we can't do this without you and join our Pay Whatsapp group.
