WE'RE FIGHTING FOR

> ## A restorative 15% pay rise

▶ The average nurse's pay has fallen by over 20% since 2010 which has contributed to over 45,000 vacancies - a pay rise keeps our patients safe by encouraging staff to return

▶ This Government have spent £37 billion on track and trace - it doesn't even work - a 15% pay rise would cost 1/7 of that & create jobs within our local economy

Safety at work

▶ We believe that our workplaces need to be safe for ourselves and our patients

▶ One element of this is our fight for adequate PPE - the UK does not provide the standard of PPE that the World Health Organisation (WHO) recommends

▶ A part of our campaign is to improve the PPE that we can use, & work with our partners to get the equipment you need - visit https://frontline.live/ or scan the QR code here:

An Anti-racist NHS

▶ Even before the pandemic, Nurses of Colour were subject to racism on an institutional & individual level

▶ During the pandemic, this resulted in over 70% of the nurses who died from COVID-19 being Nurses of Colour

▶ Together, we have formed a Nurses of Colour Network and built a tool to report racism in our workplaces to improve things on the ground - find out more here:
